

Teaching Everyday Actions Through Animation

Developing Alternative methods for engagement

*Reel Grrls worked with
53 youth in
2 classrooms
to create 3 videos*

*These videos have
been seen by at least
1000 people so far*

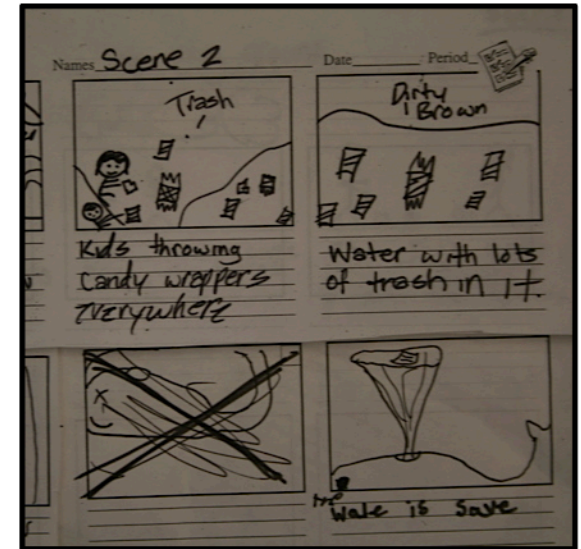

After
learning to
storyboard
we planned our
first film

*We animated our
characters patiently*

our 1st
film was
about
gardening

Then we made a
film about litter and
the watershed

and a film
about reuse

Creating a Welcoming Atmosphere

The principal threw us an amazing final party where we shared what we learned
